Date	Event	Description/registration link
Wednesday, 21 April 2021   17.00-18.00 UTC+1	Working in Germany	<p>Here you can expect an hour packed with information about working in Germany. In addition to current figures and developments on the German labour market, you will learn what employers in Germany expect from career starters and how you can prepare for your professional life while studying at the University of Konstanz. Whether you just started, are in the middle of your studies, or just about to graduate – this event will help you to understand better what awaits you beyond the walls of the university.</p> <p><a href="#">Working in Germany</a></p>
Tuesday, 27 April 2021   17.00-18.00 UCT+1	Job Search Strategies	<p>Are you a little clueless about how to look for a job after graduation? Have you already tried to find a job for a while with no success? The Career Service is here to help! We will explore how you can become aware of your own competencies and how you can present them in your application process. In addition, we will look at different approaches to finding job openings - there's a lot more to it than online job boards.</p> <p><a href="#">Job Search Strategies</a></p>
Wednesday, 5 May 2021   17.00-18.00 UCT+1	Job Application Documents	<p>The standards for job application documents in Germany might differ severely from those of your home country. Join us and learn how to write a "German" application.</p> <p>The presentation will cover the following topics:          What should be written in the cover letter and how is it structured?          What does a German CV include and how is it different from CVs in other countries? Which details should you not forget if you want to convince a German employer?          What should you not include?</p>

Assessment Center

Assessment Center, Applicant Day, Selection Day.... Many companies opt for this elaborate applicant selection format, and other companies also present applicants with individual tasks typical of ACs during the selection process. But what exactly happens during an AC, what tasks do you face, and how can you prepare for them? This event provides answers.
