Workshop 1: Defining Alternative excellence for the ERUA Alliance –Room A2-204 / Online

This seminar/workshop will aim at defining the Research excellence and how to build an alternative excellence within the Alliance. This will provide for an introduction into the "Agreement on Reforming Research Assessment" – Published by EUA 07/2022 and will be followed by a discussion on how to build alternative research strategies, policies, and what is the impacts on universities and researchers.

This session would contribute to setting our goals for developing a common scientific strategy in the long run while reinforcing our identity as reform universities.

Moderator: Arnaud Regnault, Vice - Rector for Research (UP8), Scientific Coordinator of Re:ERUA
(ERUA- Re:ERUA)

Workshop 2: Challenge and Experience your Ideas with ERUAHAUS

– Room A2-201 / Online

The aim is to give ERUA Students an opportunity to present new ideas and actions that will help campuses, communities, societies and regions collectively solve problems around sustainability challenges, focused on aesthetics as a "critical reflection on art, culture and nature" and bring "Euphoria" to the world.

Moderator: Professor Theodoropoulou Elena

Vice Rector for Academic Affairs and Student Welfare (UAEGEAN), Local Scientific Coordinator (ERUA- Re:ERUA)

12:40 – 14:00 Lunch break

14:00–15:30 | Parallel Workshops

Workshop 3: Who cares about responsible research – and why? – Room A2-201 / Online

Departing from a critique of the current mainstream organisation of universities and responsible research that is extensively market driven and subsequently potentially silencing important knowledge, we wish to re-connects research with society and permits inclusion of marginalised traditions in knowledge making. We argue that an embodied care perspective (e.g. Bellacasa 2017, Gilligan 1991, Butler 1995, Tronto 1993) is a fruitful approach to do so. We invite scientific discussants to present their views and debate with us.

Moderator: Katia DUPRET, Head of Research - Assoc Prof (RUC)

Workshop 4: Developing joint innovative teaching initiatives – Room A2-204 / Online

Moderator: Peter Busch-Jensen, Assoc Prof (RUC)

15:30 – 15:45 Coffee break

14:00–15:30 | Parallel Workshops

Workshop 5: 1st ERUA Open Science Live Meet-Up: The Open Science Community – Perspectives, Approaches and Outlook – Room A2-201

After eight successful virtual instalments, the ERUA Open Science Meet-Ups go live at the November 2022 ERUA Summit in Paris! Given that this will be the first time a meet-up takes place with an on-site community, we decided to dedicate this session to ourselves: The Open Science Community. To get there, Max Heber and Goran Sekulovski will briefly introduce what the term Open Science encompasses for all those who may be new to the topic. They shall also shed light on why it is a good idea to perform Open Science, along the lines of responsible research. After that, we will look together at which different ties there are that connect us with Open Science and what that indicates about the Open Science Community (or Communities?). Finally, we will look at how we will be able to pursue individual community-related matters further in the contexts of the subsequent virtual meet-ups.

Moderator: Maximilian Heber, Member of the Open Science Team (UKON)

Goran Sekulovski, Head of Research Data (UP8)

Workshop 6: Intercultural Training in Higher Education: Opportunities and Limits – Room A2-204

In the interactive workshop we will discuss together basics of intercultural competences – why are they so important and what do they actually mean? What is an effective and sustainable training and where are the limits? How can you improve your (own) intercultural competence? How does cooperation succeed in cross-cultural teams? Why are intercultural competences increasingly important at universities? Let's celebrate diversity together!

Moderator: Agnieszka Vojta, Intercultural Trainer/Coordinator Central- and Eastern Europe (UKON)

17:15 – 17:30 Break

17:30–18:15 | Closing session – Auditorium MR002
