

Social Innovations for Transformative Society

Day 2 - 26th June
Room II-230

9:00 - 10:30 **ERUA students' voice (I)**

This student session examines key issues in law, democracy, and social dynamics. Topics include the role of referendums in direct democracy, the implications of residence permits as border mechanisms, the development and impact of the digital euro, and the phenomenon of social loafing as a conflict trigger in group learning environments. These student-led presentations provide insights into contemporary challenges and innovations in governance, finance, and education.

14:00 - 15:30 ERUA students joint workshop activities: Story Exchange

The Story Exchange Method (developed and widely used by the organisation “Narrative4”) is a format in which participants in a group are paired and share stories from their lives, careers or other based on the prompts given. Then each participant retells their partner’s story in the first person in the group.
