Field of Studies - Spanish Language and Spanish Literature

Previous experiences in ERUA events/activities - No, I do not have previous experience in activities from ERUA, but I am really excited to be part of this new adventure.

Your hobbies and interests - My true passion is travelling around the world and meeting foreign people because it is the best way to know about other cultures. Also, I am really interested in reading books, doing sport and listening to different types of music.

Why did you become an ambassador for ERUA? What inspires you?  
My main reason is because it is a way to be continuously connected to the international world because currently I live the Erasmus experience and it is one of the most important opportunity that I had have in my life. Last but not least, I care a lot about education system because in the future I want to be a language teacher, so communication and education are my priorities.
