

## Azul Paola Meza

Field of Study: Master's in Fine Arts and Bachelor's in Dance

Previous Experiences within ERUA and others.

I have participated in various summer schools and collaborative projects within the Fine Arts and Dance

departments in Paris 8 and other departments of universities from the ERUA.

My first experience in the

alliance was in Greece, I had the opportunity of meeting people from the

AEGEAN, the same year I got

accepted in the New Bulgarian University and then the University of Konstanz.

All those were very

rich experiences, developing critical thinking about education and reform into society. Additionally, I

have attended summer schools focused on contemporary art, architecture, landscape and anthropology

and have presented at conferences on university education reform and animation world.

Hobbies and Personal Interests:

I enjoy painting, sculpture, contemporary dance, and exploring various forms of visual and performing

arts. I am also passionate about photography and digital art. In my free time, I love visiting art galleries,

attending dance performances, reading about art and dance history, and

practicing yoga. I really love

travelling and meeting new people and new places, this personal interest has become one of my art

subjects.

Why Did You Become an Ambassador for ERUA? What Inspires You?

I have expressed my enthusiastic interest in becoming an ambassador for the European Inter-University

Alliance ERUA. This opportunity aligns perfectly with my passion for fostering cross-cultural

understanding, enhancing academic collaboration, and contributing to a united European educational

landscape.

My desire to become an ambassador stems from a deep belief in the transformative power of education

and the importance of international cooperation. Having had the privilege of studying in diverse

academic environments, I have experienced firsthand the enriching effects of exchanging ideas and perspectives across borders. These experiences have not only broadened my intellectual horizons but have also instilled in me a profound appreciation for the diversity and unity that characterize Europe. The ERUA embodies a vision that resonates strongly with my personal and academic values. The initiative's commitment to promoting mobility, fostering innovation, and creating a cohesive educational framework across Europe is truly inspiring. By facilitating the seamless exchange of students, faculty, and knowledge, the alliance is paving the way for a more integrated and dynamic European academic community. I am particularly inspired by the emphasis on interdisciplinary collaboration and the opportunity to engage with cutting-edge research and educational practices from multiple institutions. Also I am deeply inspired by the vision and goals of the ERUA and I am excited to contribute to its success as an ambassador by promoting its values and initiatives within my university and beyond.
