

## Maksim Timochoy, Mykolas Romeris University, Law & FinTech

Although I do not have any previous experiences in ERUA events/activities, I expect promotion of innovative academic approaches, sustainability and international cooperation from ERUA)

My main hobbies include music, cycling, and volleyball.

I became an ambassador for ERUA because I see that the values of this organization align with my personal values and beliefs. The orientation towards student inclusion into academic processes is what inspires me the most about this organisation

Co-Founded by  
the European Union
