Field of Studies - Linguistic Mediation

Your hobbies and interests - I'm a very outgoing person, I love getting in contact with new cultures and living new experiences every day. I love traveling and languages are one of my biggest passions. I am very organized, honest, collaborative, and sociable. I also really like nature and practicing any kind of outdoor sport.

Why did you become an ambassador for ERUA? What inspires you?
I became an ERUA Ambassador because I would like for all students, all around Europe, to find their space inside the society; to give them the rights they need and the voice to speak up their ideas and ideologies. I am a very creative and determined person, who, at the same time, is always open to listening and helping others, so I felt a suitable person within this program.
