

Dominik Bzoma

I'm doing a masters degree in psychology, I'm currently in my 4th year. My biggest interests are classical literature, philosophy, politics, comedy and football, as well as racket and water sports.

What motivated me to become an ERUA Ambassador was my experience of cultural exchanges and travels, both within and outside of the EU. I hope that I can contribute with my time and engagement to tighten the bonds between partnered Universities, proudly representing SWPS University as a humble, kind and open-minded student.
