

Tobia Ottavianelli

UNIMC

Field of studies-Political sciences

I have no previous experience with ERUA, but I can't wait to start. I'm Tobia, and I'm getting an International Relations degree in Macerata. I have always been interested in world politics and global inequalities. It's one of the reasons I chose to become an ambassador!

In my free time, I have a great passion for art and creation. I dedicate myself to the construction, sculpting, and building of scale models in wood, metal, plastic, and resin. I also have a hard science background from high school. Thanks to this mix of social, artistic, and scientific dimensions, I have a unique point of view on many subjects and the ability to address challenges in my own way.

My passions and my deep belief that a more united, equal, and advanced Europe is central to the future made me join ERUA as a way to, hopefully, make a difference.
