

## **Valentin LOUBET**

### **1 –Previous experiences in ERUA events/activities**

I discovered the ERUA alliance during the Grand 8 event in Paris 8. I would like this year to take part to seminars organised by ERUA.

### **2 - What are your hobbies/interests and what is your major ?**

I enjoy photography, cycling, pastry, gardening and travelling by train.

I have two interests that I developed through my Master: agriculture and transport and mobilities. These two sectors are the two most polluting in France and thus key sector for act concretely to limit as far as possible the climate change.

### **3- Why did you become an ambassador for ERUA? What inspires you?**

I became a student ambassador because I want to act concretely to develop concrete collaborations with universities of the ERUA alliance. For example, that can be exchanges after the class with Erasmus students.

Last year, a project to create a podcast was launched to talk about thesis in the local board of Paris 8. It would be interesting to continue this one to use this tool to share some experiences of Erasmus students.

This opportunity to become an ambassador is linked to my Masters in European affairs and my previous involvement in a regional youth council in which I promoted European cooperation.
