

ERUA2 Educational Innovation Projects (PIE-ERUA2)

Call 2025

Definitive List of Accepted Proposals

As stated in the 2025 Call for Interuniversity Educational Innovation Projects within the ERUA Strategic Alliance of Universities, for the 2025-2026 and 2026-2027 academic years:

Once the application submission period has closed, a Resolution will be issued containing the provisional list of accepted and rejected applications, along with the reasons for rejection. Applicants whose projects have been rejected will have a period of ten (10) working days, starting from the day following the publication of the Resolution, to appeal the provisional list or, where applicable, to amend or complete the required documentation.

Once the period to appeal the provisional list has closed, a final list of accepted applications is published online. A total of 10 Educational Innovation Project proposals were received within the deadline. These 10 proposals are accepted for evaluation and presented in Annex I.

Annex I. Accepted Educational Innovation Project Proposals 2025
