

Rica Joy Villa Armada

ERUA Student Ambassador

Field of Studies: Communication and Digital Marketing

Hobbies and interests: I love to do sports like badminton, swimming, basketball, etc. I am active person, I do run, hike, trek and many more that involves physical activities. Reading non-fiction books is one of my favorite things to do and Travelling is always on the list to see and experience more about life.

Motivation to become an ambassador for ERUA: I wanted to become an ambassador so I could share my experience with the ERUA community. As an international student, life is often twice as challenging, you must balance and blend in being both a student and young working professional.

I want to encourage other students by showing them that there are opportunities to get involved and be part of communities like ERUA, which can help to shape us into more effective and confident professionals.
