

Zuzanna Luczak

ERUA Student Ambassador

Field of Studies : International Relations (Master's)

Hobbies and interests:

My research focuses on migration, children's rights, and sustainability. On my days off, I love going to the forest for long, relaxing walks and picking mushrooms. I'm inspired by the nature.

Motivation to become an ambassador for ERUA:

My journey with ERUA started with the amazing project Blue Commission – Young Forum on Sustainability and Climate Change, organized by students from the University of Las Palmas.

I became an ERUA student ambassador because I would like more people to take part in the great opportunities ERUA offers. I also believe in the power of participation, and I think that involving children and students is crucial for fostering future civic engagement.
