

Frey Boukortt

ERUA Student Ambassador

Field of Studies: Computer Science

Hobbies and interests: I love reading (I'm part of an english-speaking sapphic book club!), Tinkering with technology (my soldering iron is my best friend), as well as hiking and spending time in nature. Ask me about space!

Motivation to become an ambassador for ERUA:

As a student, I like knowing that I can have an impact on the future of teaching here in Europe (and beyond!). Making education more accessible, and the idea of an open, pan-European university space really speaks to me. I'm looking forward to building bridges between people and countries, giving students a voice all the while focusing on current challenges like sustainability.
