

Kristiyana Popova

ERUA Student Ambassador

Field of Studies: Architecture

Hobbies and interests: I study Architecture at New Bulgarian University, a field that allows me to combine creativity, imagination and a desire to improve the spaces and communities around us. Outside university, I love singing, dancing and theatre — basically anything that gives me the opportunity to express myself and connect with people. However, my greatest passion at the moment is helping the student community grow, become more active and feel that students can truly make a difference.

Motivation to become an ambassador for ERUA:

It became an ERUA Ambassador because I wanted to be part of something that goes beyond one university, one country and one way of thinking.

International cooperation inspires me because it brings together people with different experiences, cultures and ideas, proving that diversity can be a source of creativity and positive change. I want to help more students discover these opportunities, leave their comfort zones and realise that their voices, ideas and participation matter.
