

Rocío Gómez Carballo

ERUA Student Ambassador

Field of Studies: Industrial Design and Product Development Engineering

Motivation to become an ambassador for ERUA:

I would like to get more involved in the organization and reach out to students at the Tafira Campus, as I believe many students would be interested in the opportunities it offers. I am particularly inspired by the work done by the 2025-2026 Engineering Ambassador, Kaluna, because it was thanks to her that I came to know ERUA.
