

Sofija Bronikaitė

ERUA Student Ambassador

Field of Studies: Law and Artificial Intelligence

Hobbies and interests: reading and writing fiction; creating visual art; researching about psychology and human behaviour; and investigating anything that sparks my curiosity in the moment.

My fascination with storytelling extends to both literature and cinema, driving my desire to understand how humans think, communicate, and build relationships. I also enjoy engaging with people from diverse backgrounds to discover new perspectives. Ultimately, maintaining an open mind is the guiding principle of my life.

Motivation to become an ambassador for ERUA: I became an ERUA Ambassador because I believe higher education should be more than lectures and examinations.

It should serve as a forum where individuals exchange ideas, challenge established perspectives, and build lasting connections. ERUA brings together students from different countries, cultures, and academic disciplines, creating opportunities to learn from one another in ways that go beyond the classroom. I am driven primarily by curiosity – to me, what matters is the willingness to ask difficult questions, explore unfamiliar concepts, and remain open to novel ways of thinking.
