

Tea Hotta

ERUA Student Ambassador

Field of Studies: Psychology

Hobbies and interests: My hobbies are vast and change according to my free time, but the most consistent ones are working out, playing videogames, and reading.

Motivation to become an ambassador for ERUA:

I became an ERUA ambassador because I became inspired by the work we have done in the local board. I genuinely found enjoyment in networking with people from diverse backgrounds and liked taking part in an intensive course organized by ERUA. It made me want to contribute more to the community while getting the chance to see more of the world at the same time.

Personally I am inspired by nature, my loved ones, and dreams. There is something about hearing people's aspirations that just excites me and makes me want to work even harder to achieve my own dreams as well. My loved ones push me to work harder everyday as I hope to be a good role model to them and I often find safety to recharge with them. Which is what brings me to nature as I'm sure without a walk in nature every now and then I would slowly crumble under everyday stress. Which is why the blue commission initiative is one close to my heart as I want to protect the nature we still have.
