## ERUA Student Ambassador

**Field of Studies:** English for Specific Purposes and a Second Foreign Language

**Hobbies and interests:** My interests lie in languages, cultural exchange, and bringing people together to share ideas and perspectives. Outside of academia, I enjoy pilates, yoga, travelling, and reading, trying to do new things. I believe in making the learning process engaging and meaningful, whether in a classroom, at an international event, or in everyday conversation.

**Motivation to become an ambassador for ERUA:** I was inspired to become an ERUA Ambassador by the opportunities this network opens up not just for me personally, but for the people around me. ERUA felt like a space where I could grow my critical thinking, communication, and leadership skills while also making a real impact on young people's educational experiences.

The prospect of building meaningful friendships across borders, contributing to a values-driven community, and fostering genuine engagement among students is what motivates me every day. I believe in the power of collaboration, and ERUA embodies exactly that.
