

Jagoda Sobiegała

ERUA Student Ambassador

Field of Studies : Psychology

Hobbies and interests: I am a Psychology student at SWPS University in Wrocław, interested in people, culture, education and the ways in which we connect with one another. Outside university, I enjoy concerts, travelling, organising events, and working on creative projects and parties. My special interest is critical thinking in the time of AI. I am also passionate about working with young people. I lead educational workshops for teenagers and enjoy creating spaces where they can learn, exchange ideas and feel heard.

Motivation to become an ambassador for ERUA:

I became an ERUA Ambassador for the second time because I believe that international education is not only about studying abroad, but also about meeting people who challenge the way we think. My previous experience with ERUA showed me how inspiring an international, interdisciplinary community can be, and I wanted to become more actively involved in creating and strengthening that community. I am inspired by curiosity, people who are willing to learn from one another, and the idea that universities can be spaces for meaningful exchange, collaboration and social change.
